Most of Staff from Last Year Are Elected to Serve Again.

THE HERALD BUREAU, A. S. Douglas, 777 King Street.

ALEXANDRIA, Va., July 14.—Five new teachers last night were elected by the city school board in addition to most of the teachers who taught at the last session. The new teachers are Mrs. Helen Springman, Miss Anna Adams, Mrs. E. W. Jones, Miss Eddie Dickert and Miss Minnie Brock. The board deferred the election of a principal for the high school.

The board decided to purchase bonds and flags for all the public buildings; also to have necessary repairs made to the buildings between now and the time for reopening. The committee was authorized to obtain bids for coal for the school.

At the weekly luncheon of the Kiwanis Club this afternoon in the Washington building an address on "Public Utilities" was given by J. C. Dickerman, engineer for the state corporation commission. Kirk E. Williams, who was a delegate from the local organization to the national convention of the Kiwanians, made his report and boost prizes were distributed by Col. Julian V. Williams and Urban S. Lambert.

Active members are now on the roster of the Old Dominion Boat Club, ten new members being elected last night as follows: J. C. Bismell, L. W. Corbett, T. E. McDougall, W. E. Pierpont, Albert J. Pless, Everett J. Pohl, Louis B. Pless, J. E. Ross, Paul Simpson, W. Everett Swann, Jr.

The club has completed a revision of its constitution and by-laws and will have them printed and distributed to its members next month. The club has also nearly completed the financing necessary to take over the old ferry slip recently purchased from the Norfolk and Washington Steamboat Company at the foot of King street.

Mrs. Ida R. Exline has purchased from Samuel Bendheim and others the three-story brick building on the south side of King, between Royal and Fairfax streets, now used by the Idle Hour Theater. A deed of transfer was placed on record this afternoon.

Funeral services for Mrs. Florence Powell Brookes, wife of William Powell Brookes, who died yesterday afternoon at the Alexandria Hospital, will be held at 5:30 o'clock tomorrow afternoon at the residence, 701 Prince street, the Rev. Percy Foster Hall, rector of St. Philip's Episcopal Church, and the Rev. S. A. Wallis, D. D., rector of Broadrock Episcopal Chapel, officiating.

## FLUXATED IRON Helps make rich red blood and revitalizes weak nerves

## A CAUSE OF WOMEN'S ILLS

Many women often think they have heart trouble, indigestion, nervous prostration, etc., when it is simply starvation of the blood.

Many women believe they are weak and nervous as a result of age, overwork, or illness. They think that their disturbed digestion, headaches, heart palpitation, shortness of breath, pains across the back, etc., are due to some serious disease instead of the real cause—iron starvation of the blood. This is proven by the fact that when many of these women take organic iron for awhile all their alarming symptoms quickly disappear and they become strong, robust and healthy. It is absolutely necessary to enable your blood to change, food into living cells and tissue. Without it nothing you do will get the strength out of it. If you are not strong and well do not wait until you go all to pieces and collapse in a state of nervous prostration, but take more organic iron—Nuxated Iron—at once. But be sure it's organic iron and not metallic iron which people usually take and which is made merely by the action of strong acids on small pieces of iron. Organic NUXATED IRON is like the iron in your blood and like the iron in spinach, lettuce and apples and it often increases the bodily and mental vigor of weak, worn-out women in two weeks' time.

Beware of substitutes. Look for the word "Nuxated" on every package and the letters "N. I." on every tablet. Your money will be refunded by the manufacturers if you do not obtain perfectly satisfactory results. At all druggists.—Adv.

## Body of Belleau Wood Hero Buried At Berryville, Va.

WINCHESTER, Va., July 14.—The body of Maj. Lloyd W. Williams, United States Marine Corps, who refused to obey the command of a French general to retire when the American Marines' line was wavering at the battle of Belleau Wood and instead seized the colors from a falling sergeant and dramatically led his men forward, was interred with full military honors this afternoon in Green Hill Cemetery at Berryville.

The body arrived early today from Hoboken, N. J. During the funeral, which took place from Grace Protestant Episcopal Church, all places of business were closed, and hundreds of people gathered from Clarke and adjoining counties to pay tribute to the officer, whose act is said to have been the inspiration that finally resulted in the German army being driven back when they were nearest to Paris.

The Rev. Malcolm S. Taylor, rector of Grace Church and chaplain of the Lloyd William Post, American Legion, conducted the funeral services. Legionnaires fired three volleys over the grave and a bugler sounded "Taps."

Ing. Burial will be in Ivy Hill Cemetery.

Mrs. Brookes besides her husband is survived by four children, Mr. Ether Foote Brookes and William L. Brookes, this city; Mrs. William L. Packard, Geneva, N. Y., and A. Powell Brookes, Baltimore.

Six Organizations Adopt Tentative Plans for Project.

A federation of soldiers' organizations is to be formed if tentative plans inaugurated last night at a meeting of representatives from six different soldier organizations at the District Building are favorably accepted. George J. Newman, past commander of the National Capital Post of the Veterans of Foreign Wars, made a short talk, in which he said the federation would serve to gain legislation for the soldier organizations which the individual organizations have been unable to get in the past.

The organizations represented last night were the American Legion, A. S. Imirie; Veterans of Foreign Wars, S. H. Jacobson, chairman; Disabled American Veterans of the World War, Capt. Elmer N. May; Spanish-American War Veterans, John Murphy; the Army and Navy Union, James Hull, and the Grand Army of the Republic.

## UNTAX HOMES OR FACE SOCIALISM, CALDER WARNING

Sees Shortage Resulting in U. S. Subsidies, He Tells Realtors.

CHICAGO, July 14.—America's prosperity is dependent upon a revival of the building industry, in the opinion of Senator William G. Calder, of New York, who addressed the annual convention of the National Association of Real Estate Boards.

"America today is short 1,000,000 homes," said Senator Calder. "Home building is essential to the well being of the nation."

To stimulate building, Senator Calder advocates:

1. Establishment of a bureau in the Department of Commerce for the dissemination of information regarding technical practices in the building industry.

2. Establishment of a home loan bank so that \$1,000,000,000 will be placed at the disposition of home owners.

3. Amendment of the revenue laws to make profit on capital assets assessable for taxation during years of their accrual rather than at the tax rate of the particular year of profit realization.

4. Encouraging the building of homes by an amendment to the revenue laws which would provide that for a five-year period profits be exempted from Federal tax, provided such profits are reinvested in the construction of new buildings accompanied by new money, dollar for dollar.

5. Amendment of the revenue laws so that income from small

holdings in real estate mortgages be exempted from taxation.

Some State Socialists "I am not an alarmist," said Senator Calder, "but I believe that unless practical and economically sound facilities are afforded to active resumption of construction, the increasing shortage may bring such a home shortage that paternalistic subsidy legislation may be resorted to. We need legislation affording more construction by private enterprise and more ownership of homes through liberal private arrangement in financing."

The greatest difficulty in bringing about the resumption of building in Senator Calder's opinion is in obtaining sufficient credit for building operations. "There are \$2,000,000,000 in savings deposits in banks today," he said, "and only 8 per cent of this money is loaned on real estate, whereas there should be at least 50 per cent."
